

# Erosion study

Shoreline protection plan to become reality in late spring

BY AMY PICKICH

The Corps of Engineers and the Mississippi Department of Environmental Quality have issued a shoreline protection and erosion control plan to affect Waveland, Bay St. Louis and Hancock County.

Once the complete study is finished, the project will implement structural shoreline protection measures at three sections of the county seawall system on Beach Boulevard.

Manager Johnny Grandison said the study is scheduled for completion in November. He also projected plans and specifications to be completed in May of 1994, with construction beginning soon after.

One phase of the study has plans for work in three sections

in Hancock County, Bay St. Louis, and Waveland. Plans include:

—construction of a timber bulkhead approximately 10 feet in front of the existing seawall and about 1,000 feet horizontally in Hancock county;

—construction of a revetment for the existing approximately 1,000-foot long seawall section in Bay St. Louis. The base of the revetment would extend from the base of the existing seawall to a point 52 feet out into the Mississippi Sound; and

—construction of a revetment for protection of the existing seawall in Waveland. The top of the revetment would be at approximately elevation 2.8. The base of the revetment

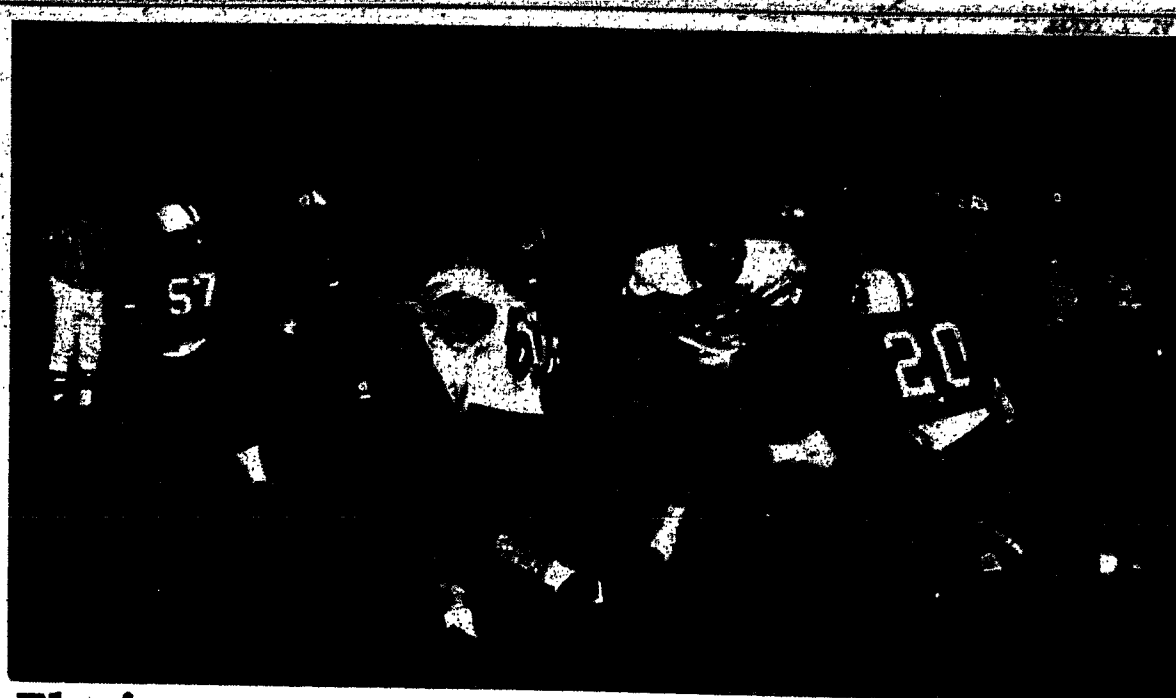

would extend from the base of the existing seawall to a point 15.5 feet out into the Mississippi Sound.

Grandison stressed the Corps will recommend a concrete/sheetpile material to be used in the project. He said the Corps is coordinating riprap as second choice for the project.

The proposed action is not expected to cause any significant land use changes in adjacent areas.

Curtis M. Flakes of the Corps wrote, "The decision whether to proceed with the proposed action will be based on evaluation the probable impact including cumulative impacts of the

## Picking up

Bay St. Louis resident Melanie Mumme was one of over 400 volunteers in Hancock County combing the area for trash in Saturday's county-wide cleanup. Mumme found this carpet scrap on the seawall, which was also littered with broken glass, paper and other items. (Photo by Janet McQueen)

## UW rally

Coach Larry Ladner to speak

BY ELLIS CUEVAS

J. Larry Ladner of Kiln will be the keynote speaker for the The United Way of South Mississippi's 1993 Hancock County Campaign Kickoff on Thursday.

The dutch treat breakfast kickoff will be at the Diamond-head Days Inn at 7:30 a.m. Reservations should be made by Sept. 21 by calling 467-9204, 8 a.m. to 4 p.m.

Ladner, who has been referred to as an Ambassador of Basketball, is a 1955 graduate of Kiln High School. Prior to retirement Ladner was assistant professor, Dept. of Coaching and Sports Administration, University of Southern Mississippi.

The United Way of South Mississippi (UNWSM) includes the counties of Hancock, Harrison and Pearl River.

Some 49 agencies are funded by the UNWSM in the three counties and serve people of all ages.

A goal of \$1 million has been set for the 1993 campaign with Dennis Dollar as the overall chairman.

The campaign is being led by Clay Wagner in Hancock County; Rick Stewart in Harrison County and Sandra Barker in Pearl River County.

Funding for the UNWSM comes from Combined Federal

RALLY—Page 3

## School board ok's non-certified raises

BY AMY PICKICH

The Hancock County School Board last week approved a 3 percent raise for school bus drivers and a 6 percent raise for mechanics retroactive to July 1, 1993.

Mechanics received 3 percent more to bring them up to the 6 percent total raise that other non-certified employees have received.

The motion also amended the 1993-94 budget to reflect the expenditure, which will come from the non-operating revenue and expenditure fund.

Board member Larry Peterson voted against the motion because it did not include all non-certified employees. Teachers' aides were excluded from this pay raise.

Some board members who voted for the pay raise said aides were excluded because they just received a 7.02 to 9.23 percent pay raise of \$600.

Superintendent Myrna Bourgeois said everyone should be treated fairly with "across-the-board" pay raises.

The board also discussed the alternative education program as recommended by the state attorney general. The board went on record to support the program, which will be discussed further at the next meeting.

TAXES—Page 5

The board declared electrical damage from lightning at the football field an emergency because it was hazardous and needed to be repaired immediately. Cost of repairs will be announced at the next meeting.

Other agenda items approved included:

—resignations of cafeteria workers Mary Cady and Kathleen Favre, Gulfview Elementary;

—three week medical leave

## \$1,000 reward offered in cemetery vandalism

BY ELLIS CUEVAS

A \$1,000 reward has been offered for information leading to the arrest and conviction of the person or persons involved in the vandalism of the Logtown Cemetery.

The cemetery is located in the NASA buffer zone and was vandalized on the night of Sept. 12 or 13.

The incident is being investigated by the Hancock County Sheriff's Department, with criminal investigator Delbert Seay in charge.

Seay said, "I think it a terrible thing to do vandalism, especially in a graveyard. Our department is going to do everything possible to apprehend these culprits."

"We are going to beef up the patrol in the area to try to catch the culprits. Usually it is more than one person involved in such vandalism," Seay added.

Any information will be kept confidential, Seay said. The cemetery is located on the Pearl River in old Logtown, and the area was taken over for use as a buffer zone for the test facility located in Hancock County.

The Logtown Cemetery Association is offering the reward.

## No new taxes

Supervisors set county tax rate for 1993-94 budget

BY AMY PICKICH

Hancock Supervisors set the county-wide tax levy Wednesday for the 1993-94 fiscal year at 49.25 mills, with no new taxes for county taxpayers.

The tax levy remained the same as last year, with a mill generating more now, \$143,000 county-wide. Revenues are projected to increase over \$500,000 from \$6,675,000 in 1993 to \$7,191,500 in 1994.

The board also voted to refinance two bonds that will presently save the county some

\$75,000. The bonds included a \$1.4 million resale bond and a \$1.2 million multipurpose building bond.

Board attorney Gerald Gex said the refinanced rate will go from about 7 percent to 4.24 percent.

State Senator Bill Johnston discussed a partial closure of the Pearlington rubbish site.

The board emphasized they support only a partial site closure, with a designated area

## BSL adopts \$9.8 mil budget

BY AMY PICKICH

The Bay St. Louis City Council adopted a \$9.8 million operating budget for the 1993-94 fiscal year on Wednesday, some \$1 million less than Mayor Eddie Favre proposed.

After the meeting, Mayor Favre said that the city may entertain additional funding, once negotiations are finalized with Casino Magic.

Tax rates for 1993-94 will remain the same as this year, with 5 mills set for the city and 49.95 mills set for the Bay-Waveland School District.

The budget included \$50,000 to be added to the County Library System's operating expenses of \$51,000. Library members had requested \$265,000 from the board at a recent public hearing.

Library officials were present to publicly thank the council for increasing the library's operating funds.

"We are delighted the council reconsidered the original appropriation and we look forward to working with them in providing quality library services for the community during the year," said Tina Williams, library board of trustees chairman.

The Hancock County Chamber of Commerce will receive \$6,000 in 1993-94, twice as much as they received last year.

Chamber executive director Cindy Vernon said they were very pleased with the council's amount of funding.

The \$1 million cut from Favre's proposal included reducing funds for holiday decorations, a new water well, a gas line, workshops, travel, and new personnel.

However, the budget did allow for city employees to receive an average 7.5 percent raise.

**HELEN F. ARENDALE**  
 Helen F. Arendale, 91, of Fort Walton Beach, Fla., died Wednesday, September 15, 1993, in Fort Walton.

Mrs. Arendale was born in Logtown on November 18, 1901 to Calvin W. and Sarah Baxter Fountain.

She had been a resident of this area for the past 26 years.

She was a member of several professional organizations and sororities. She had been a teacher and principal with the Mississippi Public School System.

Mrs. Arendale was a member of Cinco Baptist Church.

Survivors include one daughter, Dorothy Swiatek of Fort Walton Beach; two sisters, Daisy Barfield of Sardis, Miss., and Shirley Fountain of New Orleans, La.

Graveside services were

conducted in Beal Memorial Cemetery in Fort Walton Beach Sept. 17. McLaughlin Mortuary, Fort Walton Beach, was in charge of arrangements.

**HEZZIE G. BAHAM**  
 Hezzie G. Baham, 72, of Tickfaw, La. died Sept. 15, 1993 in Tickfaw.

Mr. Baham was the church clerk of the Solid Rock Church of God. He was preceded in death by four brothers, William Baham, Elbert Baham, Jessie Baham and Oliver Baham; a sister, Ceola Stewart; his first wife, Lottie "Dutch" Baham and a grandson, Joseph Baham Jr.

Survivors include his wife, Mrs. Ruth McManus Baham of Tickfaw; two daughters, Thelma E. Mixon of Tickfaw and Gloria B. Foret of Lafayette, La.; a son, Hezzie "Butch" Baham Jr. of Lafayette; five stepdaughters, Debra J. Melnick and Vanessa G. Haley of Atlanta, Angela Rushing of Ringgold, La. Linda C. Peppers of Gena, La., and Cecilia Dufrene of Lafayette; a brother, James Baham of Natchitoches, La.; four sisters, Myrtle Stewart of Independence, La., Myrtis Anthony of Loranger, La., Pearl Borden of Waveland and Barbara Anthony of Amite, La.; 8 grandchildren, 10 great-grandchildren and 10 stepgrandchildren.

Funeral services were conducted Saturday at Harry McKneely and Son Funeral Home in Hammond, La., followed by burial in Lawrence Missionary Baptist Church Cemetery in Loranger.

**RONALD A. JOHNSTON**  
 Ronald Anthony Johnston, 54, of Corpus Christi, Texas, died Thursday, Sept. 9, 1993, in Corpus Christi.

Mr. Johnston was a native of Bay St. Louis. He was a graduate of Bay High School and a veteran of the Coast Guard. He was formerly employed at Corpus Christi Army Depot and was a member of Our Lady of the Gulf

## In Memoriam

In Loving Memory of  
**STEVIE NECAISE**  
 Sept. 22, 1958  
 Sept. 19, 1992

One million times we have missed you, one million times we have cried.

If love alone could have saved you, you would have never died.

A heart of gold stopped beating, two brown eyes closed to rest.

God breaks our hearts to prove to us, He only takes the best.

You're always in our hearts and on our minds.

Wife Naye and girls Dana, Alyson and Shana, Mama, Daddy, Sisters, Brothers, Father-in-law, Sisters-in-law, Brothers-in-law, Nieces, Nephews, Great-nieces and Great-nephews

Parish.

He was preceded in death by his parents, George W. and Agnes A. Johnston; and two brothers, Edmund G. Johnston and Lloyd J. Johnston.

Survivors include his wife, Donna Johnston; and a son Brett Anthony Johnston, both of Corpus Christi; two brothers, John H. Johnston of Metairie, La. and Huey Johnston of Bay St. Louis; and a sister, Mary Margaret Johnston of New Orleans.

Visitation was Sunday evening at Seaside Funeral Home in Corpus Christi.

A graveside service was Monday in Seaside Memorial Park.

**HERMAN E. PAYTON**  
 Herman Elijah "Morris" Payton, 51, died Friday, September 10, 1993, in Biloxi.

Mr. Payton was a native of Vancleave and a member of the Tabernacle Baptist Church where he sang in the male chorus.

He was preceded in death by his parents, Celeste Ramsey and Albert Ramsey; a brother, Elijah Payton; and a sister, Daisy Bell Ramsey.

Survivors include his wife, Irene Payton of Biloxi; two daughters, Donna C. Payton of Albany, Ga., and December C. Payton of Biloxi; and a stepdaughter, Alpha C. Bass of Jones of Pass Christian; four brothers, Lorenzo Ramsey of Nashville, Tenn., Norman L. Ramsey and Reginald H. Ramsey, both of Biloxi, and Ronald H. Ramsey of Pass Christian; and four grandchildren.

Services were held Friday at Richmond Funeral Home in Biloxi. Burial was Saturday in Good Hope Baptist Church Cemetery in Greenhead.

**MERLYN A. RUSH**  
 Merlyn Ann Rush, 56, of Bay St. Louis died Friday, Sept. 17, 1993 in Gulfport.

Mrs. Rush was a native of Algiers, La. and a member of the First Apostolic Church of Waveland.

Survivors include her husband, the Rev. Charles Rush of Bay St. Louis; five sons, Timothy Rush of Atlanta, Daniel Rush of Picayune, Mark Rush, David Rush and Samuel Rush, all of Bay St. Louis; a daughter, Mrs. Ruth Lott of Jackson; a brother, Terry Barrios of New York; four sisters, Mrs. Mildred Dufrene of Bridge City, La., Jeanette Bourgeois of Cutoff, La., Loretta Knight and Jackie Duhe, both of Marrero, La. and 13 grandchildren.

Visitation was Saturday at Edmond Fahey Funeral Home. Funeral services will be conducted today at 3 p.m. in the First Apostolic Church of Waveland, where friends may call two hours before service time. Burial will be in Gulf Coast Memorial Cemetery.

**VERONICA SCHULER**  
 Veronica "Ronnie" Schuler, 69, of Kiln died Tuesday, Sept. 14, 1993, in Bay St.

Louis.

Mrs. Schuler was a native of New Orleans and a member of Annunciation Catholic Church. She was also a member of the AARP, Waveland Senior Citizens Club and served as secretary for Annunciation Catholic School for 14 years.

She was preceded in death by her husband, Hugh A. Schuler; her parents, Robert B. and Agnes W. Webb Thomas; a brother Gerald J. Thomas; a sister, Roberta Thomas Reynolds; and a grandson, Christopher Allen Schuler.

Survivors include two sons, Gerald R. Schuler of Dayton, Tenn., and Michael C. Schuler of Kiln; a brother, Robert B. Thomas Jr. of Chalmette, La., and five grandchildren.

A Funeral Mass was celebrated Friday at Annunciation Catholic Church. Burial was in Gulf Pine Memorial Garden in Long Beach. Edmond Fahey Funeral Home was in charge of arrangements.

## JOANN SMITH AND INFANT DAUGHTER

Miss Joann Smith, 35, and her infant daughter, Pass Christian, died Monday, Sept. 6, 1993, in Pass Christian.

Miss Smith was born July 8, 1958, in Gulfport. She was a member of Our Mother of Mercy Catholic Church in Pass Christian and a graduate of Bossier City High School in Bossier City, La. She was a domestic worker and a nurses aide at Miramar Nursing Home in Pass Christian.

She was preceded in death by her father, Joseph Smith.

Survivors include two sons, Cornell Smith and Jordan Smith; a daughter, Nakeish Smith, all of Pass Christian; her mother, Mable Jordan Smith of Pass Christian; two sisters, Alice Smith of Pass Christian and Brenda Conley of Palatka, Fla.; two brothers, Raymond Smith and Joseph Smith, both of Pass Christian; and a longtime companion, Winfred Rails of Pass Christian.

Services were conducted Saturday at Our Mother of Mercy Catholic Church in Pass Christian. Burial was in Pass Christian Cemetery.

Dickey Bros.-Chambers Bros. Funeral Services in Biloxi was in charge of arrangements.

**AUGUST TRAMONTE**  
 August Tramonte, 76, of Metairie, La. died Sept. 17, 1993 in Bay St. Louis.

Mr. Tramonte was sent from Riemann Funeral Home in Bay St. Louis to Leitz-Eagan Funeral Home in Metairie.

## HENRY ZIMMERLE

Henry Zimmerle, 73, of Bay St. Louis died Thursday, Sept. 16, 1993, in Bay St. Louis.

Mr. Zimmerle was sent from Edmond Fahey Funeral Home in Bay St. Louis to Bultman Funeral Home in New Orleans for services and burial.

## In Memoriam

In Loving Memory of  
**STEVIE NECAIE**  
 Sept. 22, 1958  
 Sept. 19, 1992

"Death is nothing at all. I have slipped away into the next room. I am I and you are you. Whatever we were to each other, that we still are.

Call me by my old familiar name, speak to me in the easy way which you always did. Put no difference in your tone, wear no forced air of solemnity or sorrow.

Laugh as we always laughed at the little jokes we enjoyed together. Pray, smile, think of me, pray for me.

Let my name be ever the household word that it always was. Let it be spoken without effect, without the trace of a shadow on it. Life means all that it ever meant. It is the same as it ever was; there is unbroken continuity.

Why should I be out of mind because I am out of sight? I am waiting for you, for an interval, somewhere very near, just around the corner.

Gone from our home, but not from our hearts.

Sadly missed with all our love,  
 Wife Naye and girls Dana, Alyson and Shana

Campaign, individual gifts, corporations and through payroll deductions.

Hilda Bourg of Diamondhead is chairman of the Hancock County Area Operating Committee which consists of 19 volunteer members.

The UNWSM Board of Directors is also chaired by Bourg.

Ladner has become a much recognized author on the game of basketball with over 20 articles that have been published in

national and international publications.

He has become a much sought after speaker at clinics and banquets, having made more than 500 talks of that kind in his career.

He was the first American basketball coach invited to Venezuela to conduct clinics and seminars at the National Institute of Sports in conjunction with the University of Zulia.

Ladner was voted the most

valuable basketball player in Hancock County in 1955. He was the first Hancock basketball player to be named to the All-State Basketball team in 1955 while a student at Kiln High School.

In 1957 Ladner received an associated arts degree from Pearl River Community College; bachelor of science degree from Louisiana College in 1960; and a master's in education from the University of Southern

Mississippi, 1969.

Prior to joining the USM faculty, Ladner posted a 253-82 record from 1960 to 1971, as Picayune High's head basketball coach.

Ladner is no stranger to United Way, as he has also served on the board of directors of the Forrest-Lamar counties.

He has received numerous awards and honors including, PRC Sports Hall of Fame, 1988; Excellence in Teaching Award, USM, 1981, 1976 and 1974. He served as honorary head coach for the Mississippi Special Olympics State Basketball tournament, 1980, 1979, 1978 and 1977; and founded the first College/University Girls' Basketball Camp in Southeastern United States, 1973.

Ladner is married to the former Peggy A. Willoughby and they have two sons, two daughters and grandchildren.

For further information call the UNWSM office at 467-9501.

## Erosion

Continued from Page 1

proposed activity on the public interest. That decision will reflect the National concern for both protection and utilization of important resources.

"The benefits which may be reasonably expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered."

A public notice was issued in

accordance with the rules and regulations published in the Federal Register on April 26, 1988. Regulations provide for the review of dredge and fill programs for federally authorized projects.

Section 14 of the Flood and Control Act of 1946 provides authority for the Secretary of the Army to undertake emergency measures to prevent erosion damages to endangered highways, public works, and

non-profit public facilities.

A public hearing may be requested by any person whose interests may be affected. Any correspondence should be directed to the District Engineer, U.S. Army Engineer District, Mobile, P.O. Box 2288, Mobile, Ala. 36628-0001.

## Urbanovsky speaks at OLG

Betty Urbanovsky will speak September 25, after the 5:30 p.m. mass at Our Lady of the Gulf Catholic Church in Bay St. Louis.

Urbanovsky is best described as wife, mother, grandmother, widow, radio personality, vocalist, CCD teacher, youth counselor and tour guide.

She has led over forty pilgrimages all over the world and has witnessed and experienced many miraculous events.

In her presentations, she shares her life, her ups and downs, the illness and death of her husband and many of the miraculous happenings that occurred when leading pilgrimages to Fatima, Lourdes, Garabandal, Medjugorje, Assisi, Guadalupe, Rome and many other places throughout Europe.

For more information, call Yvonne at 467-3601.

## Two blood drives planned in county

Individuals living near or working in Hancock County will have two opportunities to help keep the blood supply at a safe level for family, friends and neighbors.

On Wednesday, September 22, the Waveland Community will host a Red Cross blood drive from 2 until 7 p.m. at the American Legion 77, located on Coleman Avenue behind Merchants Bank. On Monday, Sept. 27, Post 58 Volunteer Fire Department, located at 25150 Hwy. 603 in north Hancock

County, will host a blood drive between 4 and 7 p.m.

Individuals who have not donated within the past 56 days, as well as those who have never donated before, are encouraged to do so during one of these drives.

A blood donation is a simple and safe procedure that takes approximately 45 minutes.

Donors must be at least 17 years of age, weigh at least 110 pounds and be in good health. There is no age limit for senior citizens who are in good health.

## Tutors needed at Bay Junior High

Evelyn Day, guidance counselor at Bay Junior High School, is asking for volunteer tutors for 7th-12th grades.

Tutors can help anytime during school hours, 7:30 a.m. to 3 p.m.

Periods can be arranged for the tutors' convenience. One period of 20 minutes, 30 minutes or up to 55 minutes will be most appreciated, one day per week or all five school days.

A tutor does not need a college degree.

Supplemental help in these areas is most needed: to review homework, practice drill on basics, especially in math, and help students feel that they can do the work.

Please call Day at 467-5297 for more information or to volunteer.

## First Methodist in Pass sets bazaar

The 3rd annual Harvest Bazaar at First Methodist Church of Pass Christian will be Saturday October 2 from 8 a.m. until 2 p.m.

It will feature breakfast and lunch at the church, located at 526 East Second St. Items for sale include handmade crafts, Christmas items, and crocheted pieces. There will be a flea market, clothes closet, and a bake sale, with cakes, pies and candy.

Tables are still available for rent to crafters and others with items for sale. Contact Dot Shamp at 452-2625 or the church at 452-4080 for information.

## "QUOTABLE QUOTES"

By Ellis C. Cuevas

The good news this week for us walkers is, county crews have been very busy cleaning the Hancock County Walking Track in front of Hancock Medical Center. The grass was taking over the track, and I am glad the supervisors have addressed the problem. Myself and many more say thank you.

This would be a small world if all of us would never leave our area and see how other people and communities do things.

Along with relaxation, vacations are times when one can observe how things are done in other areas and possibly show us how maybe we should be doing things, too.

Jane and I were part of a group of 41 persons on a Hancock Bank Classic Club tour to Helena, Arkansas, Branson, Missouri, Eureka Springs and Muffreesboro, Arkansas for seven days.

The group was from the Mississippi Gulf Coast, along with a couple from Baton Rouge, and we were on a Coastliner motor coach.

Making the trip from the area were Harold and Alice Masson of Waveland, Phillip and Irene Scafidi, Watson and Ruth Johns of Bay St. Louis and Dot Van Norman of Diamondhead.

The economy of Branson, Eureka Springs and Muffreesboro are all built around tourism.

Tourism once again plays an important role in Hancock County's economy, as well as the Mississippi Gulf Coast with the advent of gaming last year.

Among the observations I made in Branson were the low prices in restaurants for food items and the low cost of hotel and motel rooms in comparison to those along the Mississippi Gulf Coast.

True, many of the food outlets featured buffets, but the prices were still very reasonable. Fried chicken and barbecued ribs seemed to be the most popular meals.

There are many motel rooms in Branson, and the majority are sold out each night, yet the prices are reasonable.

The cost for tickets at the 33 shows in Branson vary, and for some shows it is almost impossible to get tickets unless they are reserved. Our tickets were purchased many months ago.

Who knows, it is possible along with gaming, maybe someone would think about building a few shows along the Mississippi Gulf Coast.

I know one thing is for sure, it is a lot easier to get here than cities in Missouri and Arkansas.

I feel we could offer a tourist much more than Branson, as we have very good highways, beaches, historic spots, and much more compared to that area.

Hopefully tourism will continue to grow along the Coast, and Hancock County may reach the *haydays* it had at the turn of the century all year long.

I have been requested by a subscriber to publish the following prayer in my column, which is said each morning at St. Clare Church.

I think it is a beautiful prayer, so I pass it on to you. "Heavenly Father, all the elements of nature obey your commands.

Calm the storms that threaten us, and turn our fear of your power into praise of your goodness. This we ask through Christ, our Lord. Amen."

So many things are happening this week. Thursday morning is the big kickoff for the United Way of South Mississippi's Hancock County fund drive. My longtime friend, J. Larry Ladner of Kiln, now retired, will be the featured speaker.

Larry, as many of you know, was an assistant professor, Department of Coaching and Sports Administration at the University of Southern Mississippi for many years.

Larry has touched the lives of so many youngsters during his career at the high school and college level and has been involved in coaching clinics all over the South and even in foreign countries.

The United Way kickoff is set for 7:30 a.m. at the Diamondhead Days Inn. The dutch-treat breakfast is \$6 per person.

## THE SEA COAST ECHO DELIVERS!

### LITTER FREE BY '93 HANCOCK COUNTY

To "adopt" a street in Bay St. Louis or Waveland, call Naomi Martin at 467-2537. For the county, call Linne Swilley at 255-3367 or 1-800-367-2271. The county will erect adoption signs on stretches of road 1 mile or more. In Diamondhead, call Bob Valigosky at 255-7198.

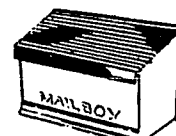

To report litter or illegal dumping in the county, call 255-6246; for the city of Bay St. Louis, call 255-6234.

Callers need not identify themselves, merely give tag number and location or name, address and location.

### Mill pond

Logs were moved from the forests by rail and brought to the mill pond of the H.L. Hines Lumber Mill in Kiln in the early 1900's. Finished lumber at right was ready to be shipped by barge or rail. At the sawmill in the center, a chute was used to pull the logs in for sawing. (Photo courtesy of Earl (Buck) Ladner and the Hancock County Historical Society). The Echo welcomes photos older than 25 years for publication. They will be returned to their owners.

## LETTERS TO THE EDITOR

### People have the power to refuse changes in city

To the Editor:

"Times are a'changing." These are not just the words from a musical refrain we have all heard. These are words that are spoken here in this community daily, and not everyone is happy with all of the changes. The changes in motion now threaten life as we know it in Bay St. Louis and could change every aspect of this community, which has the ambience of old times where people can feel free to walk the beach and bicycle through town.

If we, as a community, do not look at each of these changes and consider their impact, cost and consequences, we risk losing everything that brought and keeps us here.

We tend to resist change because it threatens our security or to sit back and say: "There's nothing I can do."

This letter deals primarily with the development of commercial enterprise in residential areas: specifically, at this point, the area known as Cedar Point. Again, we need to look at benefits and costs to the community as well as consequences.

First and foremost we need to consider public safety. This area does not offer adequate access for emergency vehicles if the area becomes saturated with traffic.

Secondly, we need to look at the ecological as well as the environmental situation. Major enterprise in this area will encroach upon wetlands and further destroy the ecological balance for the birds, plants and wildlife. The vibrations caused by heavy trucks and traffic will destroy the integrity of the seawall.

Next, do we have the right to destroy the hopes and dreams of the people who have moved to this area because they loved what was here?

Any decision to allow commercial development in this area should rest with the people who live there, and after careful assessment is should be based on need.

Does the community need what this business is going to offer us, and at what cost? Is it, in fact, water dependent? Not does law and ordinance demand it be on water... Does its existence depend on water?

This area is a safe place for people to walk the beach; it is a place where our youth can fish and swim without the dangers of heavy traffic.

The latest statistics show that the traffic in the area of Casino Magic has increased by 1,200 percent. There is no way that North Beach could handle this type of increase. Casino Magic Drive is private property and cannot be used for access to this area which leaves only North Beach and those residential streets connected to the beach as the only actual access routes.

There are a lot of people voicing their disapproval and fear. I keep hearing that there is no way to stop it. There are in fact ways to stop changes that the community does not want.

They are not difficult, nor do they have to be time consuming.

Write one letter to voice your objections, and sent it to each of your elected officials. Send the same letter to the Gaming Commission, the Planning and Zoning Board, the Corps of Engineers, the Bureau of Marine Resources, the Environmental Protection Agency, The Wildlife and Fisheries Department, the editors of the papers, including the New Orleans paper so we reach people who live there and own property here. Send your state and federal representatives a copy.

Leave no one that you put in position out. You do not need to change the words and send personalized letters, just make a lot of copies and change the name of the person you are sending it to. Get your children involved. If they can write their matter. After all, this is their community and their future.

Now, I have given you enough to probably keep you busy for a few hours, including the trips to make the copies and mail the letters. If you still have some time and some energy, phone one friend a night.

Get out and talk to your neighbors. Take a copy of your letter and get all of your neighbors to sign it, and deliver it to City Hall, but keep a copy of it with all the signatures for yourself.

Join a civic organization; go to a city council meeting; get involved in your neighborhood watch program, church group, garden club, environmental organization. Wherever there are people in a group, there is power and support.

Take the time to call one council member; make it a point to call the mayor. Get out where these people can see and hear you. If you do not voice your opinion now it will be too late once things are done.

The time to stop these changes is now, not after they have gone into effect. Then the only thing we can cry, "I did not want this." Then the only people we can blame is ourselves.

Fran Kief  
Bay St. Louis

### LETTERS POLICY

The Sea Coast Echo welcomes comments from its readers on subjects of general interest. Letters must be signed and include address or phone number so that the sender can be contacted by the newspaper if necessary. Letters should be brief, preferably typewritten and double spaced, and conform to standards of good taste.

Letters of thanks, expressions of appreciation and political endorsements are considered inappropriate for the Letters to the Editor columns.

## FROM THE SENATE

By Senator  
Trent Lott

### Reinventing government

The plan unveiled by Vice President Al Gore to "reinvent government" is a good move toward improving government, but it is not a new idea. The concept was tried in the late '70s under President Carter and again in 1980 under President Reagan during the Grace Commission hearings. In fact, it has been tried 11 times this century.

The idea of reinventing government should find ways to improve efficiency through size and spending reductions. And, if this plan will stick to that concept, then I'll try to help.

The biggest hurdle for reinventing government will be Congress itself, just as it was when we tried this before. Congress does not like or want to have its powers reduced. But, I want to be helpful to the administration in Congress if they are serious about reinventing government through reduction.

I want to believe that President Clinton and Vice President Gore are serious about reforming government, but I want to hear some substance and not just promise. If they are sincere about reforming government then I want to see the walk and not just the talk.

There are some big problems with this proposal right off the bat. It has no enforcement mechanism. It may have parts that sound good but we need to be sure that the administration can deliver on those promises.

The plan also creates nearly \$8.3 billion in taxes and user fees. According to *The Washington Times*, the plan "reinvents

taxes" and raises "veteran's mortgage payments by \$6 a month; imposes fees for using national fishery zones; and increases the cost of national park admissions, some electric bills, farming and mining on federal lands, maximum federal civil fines, and fees to gun dealers."

I have heard the president and vice president tell about all the good things that this plan does, but they have not made one mention about any of these so-called "revenue increasers." So again, I'm willing to help and listen, but let me see and hear the entire proposal.

Before adopting any plan, I'm going to look at how it could affect Mississippi. We could have some of our federal offices closed or consolidated. I understand that, but I want to make sure it is fair.

I will be helpful to this administration if they are serious about reinventing government with reduced spending, reduced duplication and reduced size. I will oppose anything less, that is only a wolf in sheep's clothing that raises taxes and creates more red tape.

Senator Lott welcomes any questions and/or comments about this column. Please write to: U.S. Senator Trent Lott, 487 Russell Building, Washington, D.C. 20510 (c/o Press Office)

# Tigers maul Wildcats 34-6

BY TRACI BONNEY

Attention, Tiger fans: If you didn't go to Greene County Friday (and most of you didn't, judging from the numbers in the stands), you missed one fantastic football game.

The Bay High varsity squad, and those junior varsity players coach Rocky Gaudin sent to the field in the fourth quarter, held the host Greene County Wildcats to a 34-0 shutout until the last 55 seconds of the game. Both teams were 1-1 going into the match, but the Tigers came away with their second decisive victory of the season.

Xavier Lewis was a powerhouse for the Tigers in the first quarter, scoring three consecutive touchdowns in the first eight minutes of play.

His first score came on a 37-yard carry as he took a hand-off from Sam Sheppard and danced left, then back up the middle for first blood. The PAT kick was good, and the score

was 7-0 only two minutes into the game.

Lewis scored again eight plays later. The Wildcats, forced to punt after six plays, put the ball into his hands at the Tiger 44 for a fair catch. Leroy Hawkins then advanced the ball a couple of yards on a short run to the left. Sheppard and Lewis capped the drive with a completed pass for a 54-yard score.

Again the point after attempt was good, and the Tigers stood at 14-0 with 6:45 left in the quarter.

Less than two minutes later, the Tigers took the ball in again. The Wildcats vainly tried to advance the ball past the Tiger 30-yard line, but the Bay players held fast and the 'Cats were forced to punt.

Once again the ball came to rest in the arms of Lewis, who ran 60 yards just inside the right sideline to bump the score to 20-0. Another kick through

the uprights made it 21-0 with 4:22 to go.

Greene County kept the ball for the rest of the first quarter and a few minutes into the second. They moved the ball to within scoring range at the 16-yard line, but couldn't push through the Tiger defense.

Taking possession on a turnover, the Tigers were stalled and forced to punt after four plays. However, the Wildcats gave the ball back three plays later when a pass found a home in the hands of Tiger Dwayne Antoine.

Less than halfway into the second quarter, it was now first and 10 for the Tigers at the Wildcat 29.

The two squads scuffled inside the 20 for a few plays, then Sheppard ran a bootleg right for a 17-yard score. The attempted 2-point conversion fell flat as the pass went incomplete. With 6:25 in the half, the score was 27-0.

The Wildcats took the ensu-

ing kick at their own 6 and launched a drive that lasted 10 plays and moved them to mid-field. The effort to advance stalled at the Tiger 48, though, and the 'Cats were forced to turn over possession to Bay High.

The Tigers dominated the ball for the last two minutes of the half, but a Wildcat pass interception in the last 30 seconds changed possession. Nothing came of the change, however, and the half ended with no further scoring.

The Wildcats elected to receive the opening kick of the second half. They didn't stay in control of the ball for long, though, and were forced to punt while still in their own territory.

The punt went deep into Tiger territory, and Lewis gained only 3 yards after the catch before he was stopped.

Three plays later, Sheppard hit Cedric Clayborn for a pass, and Clayborn completed a 42-yard TD play. With the PAT, the Tigers stood at 34-0 for the night with 6:54 left in the third quarter.

Bay High would score no more during the game, but the scoring wasn't finished. The Wildcats pulled a TD out of the hat with only 55 seconds of play left in the game.

After the Tigers' final TD, the ball changed possession five times. The fifth change, which started with a Tiger turnover, gave the 'Cats their only points for the night.

Greene County moved the ball from their 20 to the Tiger 3 during the seven plays that followed the turnover. The play that put the ball in scoring range was a spectacular zigzagging run by Wildcat Tommy Dunnman, who took a handoff and moved the ball down the right from the 42 to the 6-yard line.

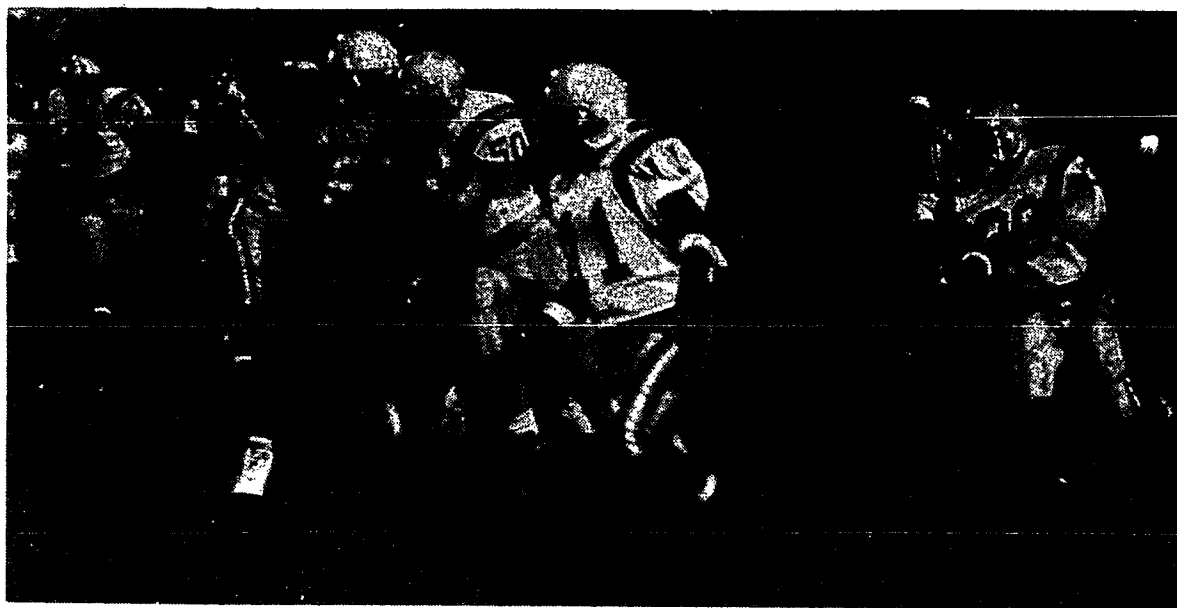

After a gain of 3 on the next play, Greene County scored. The PAT was no good, and the score stood at 34-6.

The game ended with the Tigers in possession as the clock ran out.

Coach Gaudin said he was glad for the win. "We're always glad to win. I'm very appreciative that the program at Bay High has come as far as it has. The team played real well offensively, but I'm not satisfied with the defensive playing. Greene County moved the ball real well on us."

"I'm sorry for the loss to Picayune at the start of the season. We wanted to go into this game 2-0. But I am pleased with the team's overall playing tonight."

The 2-1 Tigers travel to East Central for their first 1993 district game Friday. Kickoff is at 7:30 p.m.

## Teamwork

Keith Corr (#76) and other Tigers in the backfield move in to assist as Jeremy Turcotte (#50) and Sam Sheppard (#11) provide blocking for ball carrier Xavier Lewis (#30) in Friday night's 34-6 Bay High victory at Greene County. (Traci Bonney)

of absence for Rhea Scafid; —employment of Monique Clifton as an elementary teacher at Hancock North Central Elementary.

—employment of substitute teachers Valerie Ladner, Robin Craft, Vickie Overal, Tammy LaFontaine, and Annette Green for the district for the 1993-94 school year.

—the employment of certified substitute teacher Mary Alice Enders.

—employment of four persons for the 1993-94 part-time after school Drug-Free Schools

coordinators to be funded 100% from the Drug-Free Schools and Communities grant;

—the district's reimbursement of \$2,865.07 to the School Food Administration. There was an undercharge of 15 cents per adult meal during the 1991-92 school year. The board said this would be a switch-out of monies at no cost to the district.

—the payment for transportation costs for all athletics at approximately \$3,315 for the 1993-94 school year since football gate receipts are low.

—donations of 50 pair of Nike football shoes, valued at \$2,500, from Brett Favre and a VCR, valued at \$450 from the Diamondhead and Bay St. Louis Rotary Clubs for the Hancock High School football team.

—a donation of the band uniform storage unit by the Hancock Band Boosters, materials donated by Markel's, West Lumber, McDonald's & Sons, and Hubbard's, and volunteer carpenter Rodney Wilkerson.

—Out-of-district tuition student at Hancock High School for the 1993-94 school year.

## Taxes

Continued from Page 1

kept open for county use. They agreed this would be in the best interest of the county. Plans will continue at the next meeting.

The board authorized Compton Engineering to provide the specification plans for the disposal of solid waste so they can advertise for bids. The board stated they are ready to enter an agreement with Bay St. Louis and Waveland.

Tax assessor Eddie Murtagh informed the board of a new law requiring a \$100 investigative fee for pawn shop licenses to be paid to the city clerk or tax assessor. Murtagh said the fee would go into the county general fund.

Recreation officials updated the board on projects for McLeod Park, including increased parking facilities. They said the park is doing well and looking good.

Linda McKay requested county assistance to provide a free wellness clinic once a week at the Highway 43 Community Center. The center has a planned opening date of October 20.

The board approved items donated and allocated \$200 and county labor for repairs to the building.

Board president Michael Ladner said this project was "another indication of growth in the county."

The board authorized Bill Mitchell to forward all documents for the seawall and the beach project to Johnny Grandison at the Corps of Engineers.

The board accepted bids on a sports/utility vehicle for tax assessor's office on the contingency of approval by Murtagh

and his staff. Murtagh agreed to discuss the matter further with the board.

The board accepted the maintenance responsibility of the first 500-ft of Buddy Lane.

Road Superintendent Sam Cuevas informed the board of

120-ft of damage to Rester Road. Cuevas said the person responsible will repair the damage.

The board planned to discuss treatment of prisoners at next board meeting scheduled for September 28 at 9 a.m.

# Hawks defeat Rocks 27-6

BY JOSEPH GEX  
AND ELLIS C. CUEVAS

The Hancock Hawks claimed their first district win Friday at Rock-A-Chaw stadium with a 27-6 victory over St. Stanislaus.

It was a run-dominated ball game. Hancock gained 286 yards rushing and 457 yards in total offense opposed to SSC's 145 yards total offense.

Hawk head mentor Irvin Favre said, "We played a great game. Stanislaus was very aggressive, and this game always is when we play the Rocks."

"In the first half we made several small, costly mistakes causing us to miss scoring opportunities, but overall, the Hawks executed well and played good defense."

Hancock chose to receive the kickoff to start the game. Behind the hard running of Lance Wedgeworth and Matt Harmon, the Hawks drove deep into Rock territory.

The Hawks sliced through the Rock defense to the Rock 21 yardline. Wedgeworth scored on a 21-yard scamper off tackle with 8:20 left to go in the first quarter. The PAT by Chris Sins was good making the score 7-0.

The Rocks received the ball after Hancock's score to test the Hawk defense. After minimal gains from scatback Jeep Mestayer, he busted loose for a big gainer around the end.

However, Rock field general Correy Gex suffered two sacks from a fast charging Hawk defense and the Rocks had to punt.

The Rock defense came out with a little intensity and went after the Hawks, keeping them out of the end zone this series.

The Hawks had a big gainer of 20 yards from Wedgeworth, but the drive was halted when Imari Esters forced a Hawk

fumble. The Rocks recovered at their own 40.

The Rocks just couldn't seem to get the ball moving. After minimal gains from Mestayer the Rocks punted back to the Hawks.

With excellent running by Matt Harmon, who gained 167 yards rushing on 14 carries for the night, Hancock moved the ball deep into Rock territory.

The Hawk drive was halted on a fake punt when Rock defensive back Nathan Middleton broke up a pass completion on the Rock 1 yardline and Brooks Quinlan intercepted in the endzone.

The Rock offense got moving a little bit on this series. Behind the bullish running of Mestayer, who had moderate gains for a first down, and a 12-yard completion from Gex to Jason Mayer, the Rocks appeared to be moving. However, the drive was halted by another Hawk sack, forcing the Rocks to punt.

The Hawks took over on their own 40 yardline. They didn't waste time racking up some more yardage with a 44-yard pass from Scotty Davis to Matt Harmon deep into Rock territory.

This somewhat promising start of a drive was abruptly halted by a fumble at the Rock 20. The SSC offense came onto the field.

The Rocks suffered another sack from the Hawk defenders. This was followed later by a 11-yard completion from Gex to Middleton for a Rock first down. However, the Rocks bogged down and had to punt to the Hawks.

Hawks defense shined in the first half allowing the Rocks only 32 yards in total offense.

Hancock scored their second touchdown of the night in only a few seconds on their final possession of the half, after taking

over on the Rock 39.

On this series, Davis went to the air for the Hawks. He completed a 14-yard pass to Marlon Allen, who ran out of bounds to stop the clock. Two plays later, Davis connected with Wedgeworth for a 25-yard pass touchdown, his second of the night, with only 15 seconds to go in the half. The PAT by Sins was good making the score at the half 14-0.

As the second half started, the Rocks came out on offense, trying to get some scoring going. After moderate gains by Mestayer, Allen Schaefer, and a bootleg keeper by Gex, the Rocks gained a couple of first downs. However, the Rocks were stalled and had to punt to the Hawks.

The Hawks started their second half offensive possessions at their own 27. After a 20-yard gainer by Wedgeworth, the Hawks lost a fumble to Rock linebacker Mike Ford.

After the fumble recovery, Stanislaus got their scoring drive together. Gex led the Rocks on an eight-play scoring drive. With a second down and long situation, Gex connected with Mayer for a 50-yard pass that took the Rocks to the Hawk's 6. Four plays later Mestayer scampered off tackle for a 1-yard touchdown plunge with 3:54 remaining in the third quarter. The two point conversion attempt failed and the score was 14-6.

On the Hawks next possession, they seemed to sputter a bit and had to punt back to the Rocks after three plays.

After a 9-yard gain for a first down by Brooks Quinlan, the Rocks were unable to register another first and Allen Schaefer punted back to the Hawks.

The Hawk offense came out smoking for their third touchdown of the night. They struck

quickly after a moderate gain by Harmon. Davis lined up his offense and connected with junior Billy Lee for a 73-yard touchdown pass with 10:45 remaining in the fourth quarter. The PAT attempt by Sins was no good and the score was 20-6.

Rock deep man Charles Oliver took the kickoff 44 yards to midfield and the offense came out hoping to get something done. However, a sack by Hawk defenders pushed the Rocks way back and they had to punt away.

Even though the Hawks had a first down and long situation, they managed to capitalize on this series. With the hard nosed running of Harmon, the Hawks drove into Rock territory. With 5:41 to go in the fourth quarter, Harmon sprinted off tackle for a 20-yard touchdown run. The PAT was good making the score 27-6. And that would be the final score for the ballgame.

The Rocks saw some promise from freshman tailback Cory Charles who came in late in the game and rushed for 32 yards on five carries. Their offense was not able to get the ball rolling, while the Hawks were incredibly impressive with their offensive output. The Hawk defense should also be noted for only yielding 145 yards total offense.

The Hawks record improved to 2-2 and 1-0 in division play, while the Rocks remain winless on the season. Both teams will go out of district play next week.

Hancock will travel to Northshore, LA, for a first time ever encounter there, Favre said.

On Friday, Stanislaus will travel to Pass Christian to renew that series.

## Cajun dance classes held in Waveland

Rand Speyrer, a native of Opelousas, La. and his wife Cynthia will offer a Cajun dance class for beginners starting Thursday, Sept. 23 at St. Clare School, 234 S. Beach Blvd. in Waveland. The class meets every Thursday from 7-8:30 p.m. for four weeks (Sept. 23-Oct. 14).

The session includes the traditional Cajun waltz, two-step and the popular Cajun jitterbug. The one-time fee of \$60 per person allows students to return to class for refresher purposes at no extra charge.

For more information and to register, call

Speyrer at (504) 899-0615.

Rand and Cynthia Speyrer are the coauthors of a new book called *Cajun Dancing* which is published by Pelican Press. They are also the producers of two new Cajun dance instructional videos, *Introduction to Cajun Dancing* and *Advanced Cajun Dancing*.

The Speyrers have taught more than 5,000 people how to Cajun dance. They offer classes at seven locations throughout the greater New Orleans area, including the University of New Orleans.

## Mr. Gatti's Pizza Express is chain's first of its kind

A new Mr. Gatti's Pizza Express, located at 700-A Hwy. 90 and Main Street in Bay St. Louis, opened Sept. 8.

The new 1,020 square-foot Pizza Express will specialize in delivery and pick up with limited dine-in seating.

The store is unique in the Mr. Gatti's system, as it is the first store to be attached to a convenience/gas store, the Shell Station.

Mr. Gatti's is a chain of 232 restaurants that specialize in high quality pizza, pasta, salad and dessert.

Mr. Gatti's crust is made fresh each morning with 100 percent natural dough, allowed to rise twice naturally, and then covered with a special recipe sauce blended from 12 herbs, spices and rich tomatoes. Mr.

Gatti's uses only 100 percent real, smoked provolone cheese for the richest flavor and taste. Toppings include high quality meats, such as Hormel and Oscar Mayer and fresh vegetables chopped daily.

To help take the confusion out of ordering a multi-topping pizza, the chain offers specialty pizzas such as the Sampler, Meat Market, Gatti's Deluxe, Double Cheeseburger, Supreme, Fiesta, Vegetarian and Black Bean No Meat Pizza.

In addition to Mr. Gatti's specialty pizzas and made-to-order pizzas, the Bay St. Louis store will feature personal size Solo Pan Pizzas — ready in minutes — for the individual diner. "At our Bay St. Louis Mr. Gatti's, we have structured a dual pricing system, pick-up

versus delivery, to pass on savings to our customers who choose to pick up their pizzas," said Mark Bailey, vice president of marketing and operations. "There are no gimmicks and no coupons are needed with our everyday low prices."

The restaurant is open seven days a week, 11 a.m.-10 p.m. Monday-Thursday; 11 a.m.-1 p.m. Friday-Saturday; and noon-9 p.m. on Sunday. The telephone number is 466-9090.

Store manager Robert Ball, from Houston, oversees 30 employees. "Our emphasis on consistency of product quality, value and speed of service guarantees the 'Best Pizza in Town' every time," Ball said. "We look forward to serving the communities of Bay St. Louis, Waveland and Pass Christian."

## Reflections

On Life

By Father Jerome  
LeDoux, SVD

## Everyday holiness

As the clock struck 4 a.m., Wilfred Guillory rose from his bed, made a steaming cup of coffee and relaxed as he ushered in the new day. There was not a sound in the house.

Presently, he shattered the surrounding silence with the loud intonation of the rosary. The volume of his voice swelled until it rolled throughout the house.

"By that time," observed his son, Bishop Curtis Guillory of the Galveston-Houston diocese, "there was no one anywhere in the house who had not been fully awakened."

That done, Wilfred clicked on the radio and turned in the news in French. Such was the beginning of his day, not just that particular day, but every single day of his life.

Theresa Jordan, his queen and wife, got 40 extra winks of sleep and made the scene a bit later. The two of them had a great relationship and beautiful offspring to show for it.

In the words of that down-home Cajun philosopher, Placide Flambeau, "Early to bed and early to rise, and you come up with a family of pretty good size." Wilfred and Theresa made that an even 16, with Curtis as number one.

Big families can have economic and social disadvantages, but, with the proper guidance, all liabilities can be turned into assets. This is exactly what happened in the Guillory family with Wilfred and Theresa firmly at the helm.

Not perfect to be sure, the 16 children nonetheless are finding their way through life in

such a fashion that, on balance, they are a credit to their parents.

Wilfred worked hard most of his life, tilling the heavy loam of the Mallet, La. area, planting, cultivating, weeding and harvesting cotton, corn and later mostly soybeans to feed and support his sizeable brood.

Some springs were so wet that it was hard to plant the soybeans on time, while some summers were too dry for the beans to thrive once planted. Through it all, Wilfred remained unruffled though his living depended on it.

"God has a way of taking care of all these things," he often

said. "God will take care of us."

If anything characterized him in his everyday living, it was the ordinary manner of his speech and behavior. "His favorite game was bourre, a game featuring cool of which he had plenty," stated Curtis in the Mass of Resurrection homily.

Other speakers at the end of the warm celebration joshed that many hapless players, trying to beat him at bourre, unwittingly contributed to Wilfred's retirement. Of course, it was the sheer experience of battle which he enjoyed.

"Daddy knew how to carry his cross," Curtis went on, alluding first to the uncertainties of weather and crops, then

to his father's bouts with diabetes and, later, cancer. "In all these things, he simply trusted in Jesus."

To the very end, he retained his subtle sense of humor and his easy feeling about life and people. Not even the doctor's

visits dimmed his cherished outlook on family and living.

"What did the doctor tell you today?" everyone would ask.

"Stop smoking!" Wilfred would respond with a twinkle.

Okay, so he had a vice whose grip he felt he could not break. In any case, his everyday life contained the kind of holiness all of us are called to by God and attracted to.

## OLG mission starts today

The Our Lady of the Gulf Catholic Church in Bay St. Louis is offering a new parish mission for the '90s, a five-day spiritual event designed for Catholic adults to spark new interest in what it means to be a Catholic today.

The mission will start today and end on Thursday, September 23, starting 7:30 p.m. nightly.

Rev. Daniel McCaffrey of Human Life International, is the retreat master.

He was ordained a priest in the Order of Preachers on June 5, 1958. He holds a doctorate in sacred theology from the University of St. Thomas Aquinas in Rome.

He was a missionary in Pakistan from 1959-1967 and

in 1972 was the spiritual director for the community of cloistered nuns in the city of Karachi.

Fr. McCaffrey served in the United States Army Chaplain Corps for over 20 years and was stationed in Vietnam, Korea, Germany, Honduras and at various army posts throughout the U.S.

From 1984-1986, he was director of both the Office of Evangelization and the Office of Natural Family Planning for the Diocese of Charleston, South Carolina. He also taught religious studies at Cardinal Newman High School in Columbia for five years.

After retiring from active military duty in 1991, he served as pastor of St. Stephen's Par-

ish in Midland, Texas, before joining the staff of Human Life International.

At the Saturday and Sunday Masses, Fr. McCaffrey will preach on how to be part of the Catholic evangelization effort so desired by Pope John Paul II.

Topics to be covered in the mission are:

**Sunday**— What the Catholic Church Believes (Creed);

**Monday**— What the Catholic Church Celebrates (Sacraments);

**Tuesday**— What the Catholic Church Lives (Commandments);

**Wednesday**— What the Catholic Church Prays (the Our Father);

**Thursday**— Marriage and the Family Today, The Gift of Natural Family Planning.

Confessions will be at opportune times. Baby sitting services are available. Call 467-6509 for more information.

On Sept. 26, 1993 at 3:00 p.m., Come One, Come All to "First Community Church" of Gulfport, MS to witness a Spiritual Experience with the Great Elder Gilbert Gillum Jr. of "Living Word C.O.G.I.C. Church" from Waco, Texas. The son of our very own Rev. Ruby Shumake and the late Gilbert Gillum Sr. of Kiln, MS.

## CLUBS, AUXILIARIES

### Gulf Coast Writers Association

The Gulf Coast Writers Association will meet Sept. 23 at 7 p.m. in the Parker Hall auditorium of William Carey College on the Coast.

This month's meeting will be a critique session. Members are encouraged to bring their work.

For further information contact Lauria Rinella at 374-6223 or Sylvia Bell at 896-4768.

### AARP

The monthly meeting of Hancock County AARP Chapter 1114 will be Monday, September 20. Guest speaker will be JoAnne Lagasse, director of the Retired Senior Volunteer Program in Bay St. Louis.

The meeting will be at 10 a.m. at American Legion Post 77 off Coleman Avenue, Waveland.

### Square dancers invite new members

The Diamondhead Squares Dance Club of Diamondhead is forming a new class to learn square dancing.

An open house/introductory session will be Tuesday, Sept. 21 at 7 p.m. No prior dancing experience is necessary. Couples or singles are invited.

To sign up, call 255-5732 or 255-1857.

The Diamondhead Squares dance very Tuesday from 7:30-9:30 p.m. at the St. Williams Recreational Hall located off Kiln-DeLisle Road, three miles north of Exit 20 off I-10.

Once lessons begin, the regular club dance will be from 8:30-10 p.m. Club caller is Doyle Grant with occasional guest callers. Call for information.

### American Legion Auxiliary Unit 139

The monthly meeting of the Clement R. Bontemps American Legion Auxiliary was Sept. 13 at the Post home on Green Meadow Road.

President Susan Piazza opened the meeting; Roslyn Weathers and Hazel Wohlschlegel advanced the colors, and chaplain Ursula Favre read the opening prayers.

Secretary Margaret Prevou and treasurer Bobby Tomlinson gave reports.

The following committee reports were given:

—Membership: Janelle Necaie reported membership has reached the 50 percent mark. She requested members submit dues as soon as possible.

—VAVS Shirley Clemons spoke on numerous activities planned for veterans and asked for volunteers to assist her.

—State chairman Lou Wilkerson told of the aim of the Girls' State for greater participation. She asks those who would like to recommend high school juniors to call her at 467-6098. She also spoke on the National American Legion Convention held in Pittsburgh, Pa. the previous week, and told of our youngest delegate to vote, Patricia Burleson, who was voted 'Junior Delegate.' Patricia, who is 'Little Miss Poppy,' also participated in the parade.

Margaret Prevou told of bringing clothing and other articles to the veterans in Gulfport; and also many things plus toys for the youngsters at the Women's Shelter.

### Bay-Waveland Garden Club

The monthly meeting of the Bay-Waveland Garden Club was called to order at 2 p.m. September 9 by President Kathleen Kemp.

Hostesses for the meeting were: Chairman Mrs. John Holmes, Mrs. John J. Richard, Mrs. Leo W. Seal Jr., Mrs. Kalus Kueck, Mrs. John Newkirk and Mrs. Adam Naquin.

The program, "Clower-Thornton Nature Study Area," was given by Mrs. W.W. Dreher.

The 1993-1994 budget was discussed and approved.

The treasurer's report was given and approved. The minutes from the last meeting were approved.

Monthly beautification awards for August were awarded to Evergreen Antiques, commercial, Mr. and Mrs. B. Migliore of Waveland and Mr. and Mrs. P. Benvenuti of Bay St. Louis.

Alice Holmes gave a short presentation on Mississippi wild flowers.

Lyn Nybo discussed the declining populations of birds and loss of their habitats.

President Kemp discussed club projects for the coming year.

The Garden Club will combine the October meeting with the Spanish Trail District meeting to be held at Paul B. Johnson State Park in Hattiesburg on Wednesday, October 13.

Members will leave the club at 8 a.m. and return by 3 p.m. Members must turn in \$8.50 by October 1 to cover lunch and transportation. Send checks to Kemp at 1312 N. Beach, Bay St. Louis.

It was announced that a Judges Flower Show will be held on Tuesday, September 21, from 1 to 2 p.m. at the home of Mrs. Alice Brameyer in Waveland.

The meeting was adjourned at 3 p.m.

### Multiple Sclerosis Society

The Multiple Sclerosis Society will hold its next meeting Saturday, Sept. 25 from 2-3:30 p.m. at the Airport Holiday Inn on Hwy. 49 in Gulfport.

For more information contact Larry McIntosh, 392-4599; Jan Cloud, 392-5496; or Arnette Lawrence (Pascagoula), 588-6303.

## PRC seeks Alumni of Year nominees

Nominations for Pearl River Community College's Alumni of the Year and Sports Hall of Fame will be accepted until 3 p.m. Friday, Sept. 24.

According to Donna Wilson, director of alumni affairs, a male and female will be selected to receive the Alumni of the Year awards and three former athletes will be named to the Sports Hall of Fame.

Wilson said those selected must have been enrolled at PRC for at least a year, however, actual graduation is not required.

Alumni of the Year recipients should have distinguished themselves through involvement with or promotion of Pearl River College and should have made a significant contribution to their community. The recipients must be active PRC Alumni Association members.

Alyce Wanda Castleberry and Dr. Homer Moody Jr. were the 1992 Alumni of the Year recipients. George W. Bilbo Sr. of Lumberton, Roland Ladner of Hancock County, and Jean Pigott Bourne of Columbia were inducted into the 1992 Sports

### Hall of Fame.

Hall of Fame nominations should be based on athletic prowess and accomplishments with consideration given to attributes and attainment of character, leadership and citizenship.

Please mail nominations with resumes to Donna Wilson, Office of Alumni Affairs, Pearl River Community College, Box 5389, Poplarville, MS 39570. For more information, call 795-6801, ext. 383.

## WEDDINGS, ENGAGEMENTS

## Solis-Burrows

Jennifer Leigh Burrows of Pearlinton and Kenneth Russo Solis of Pearlinton were united in marriage July 31, 1993, at Our Lady of the Gulf Catholic Church in Bay St. Louis.

Rev. Cuthbert O'Connell officiated the 7:30 p.m. ceremony.

The bride is the daughter of Mr. and Mrs. Larry D. Burrows of Pearlinton. The groom is the son of Mr. Lloyd Solis Jr. of Harahan, La., and Mrs. Linda Russo Solis of Pearlinton.

The bride was given in marriage by her father. Bethany Burrows attended her sister as maid of honor. Bridesmaids were Kristine Pechon, Tamara Hopson and Sara Sraker.

Scott Burke was best man. Groomsmen were Scott Burke, Sean Pechon, Paul Mire and David Quatrocci.

Ushers were Kevin Solis, Brant Russo and Tom Higgins.

Organist Olive McKenna and soloist Lana Noonan provided nuptial selections.

A reception followed the ceremony at the Diamondhead Community Center.

The bride graduated from Our Lady Academy in 1988. She was graduated cum laude from Tulane University with BA degrees in political science and English.

She attends Tulane School of Law where she is a member of the Tulane Law Review.

The groom was graduated from Benjamin Franklin High School in New Orleans. He received a BA degree in civil engineering from Tulane University.

He is employed as a project engineer with Boh Brothers Construction Co. Inc.

Mrs. Kenneth Russo Solis

## O'Brien-Pajak

Stacy Ann O'Brien of Waveland and Jeffrey Scott Pajak of Mobile, Ala., were united in marriage April 17, 1993, at St. Clare Catholic Church in Waveland.

Father Noel Fannon officiated the 2 p.m. ceremony.

The bride is the daughter of Thomas O'Brien of New Orleans and Carol O'Brien of Waveland.

The groom is the son of Dr. and Mrs. Roger Pajak of Vienna, Virginia.

The bride was given in marriage by her father. She chose a formal gown of white silk taffeta with scalloped sabrina neckline. The bodice and long tapered sheer sleeves were applied with beaded lace.

The gown featured a deep V-back closed with tiny buttons to a large bow and a scalloped drop waist above a full skirt and chapel train decorated with lace cut-outs.

She wore a tiara headpiece of matching lace, accented with pearls and crystals with back puff and fingertip veil of illusion.

The bride carried a pink-tipped cascade bouquet of bridal white roses accented with greenery.

Matron of honor was Shannon Collins, sister of the bride, of Ocean Springs. Maid of honor was Erin O'Brien, sister of the bride, of Waveland.

Bridesmaids included Laura Haas of Bay St. Louis, Dana Peterman of Waveland and Anna Dean of Diamondhead.

Best man was Jeff Moore of Atlanta, Georgia.

Groomsmen were Bubba O'Brien, brother of the bride, of Waveland, Michael Collins, brother-in-law of the bride, of Ocean Springs, Kevin Stoots of Marion, Virginia, and Kevin Wright of Washington D.C.

Sean Anthony of Pass Christian was an usher. The attendants were attired in floor length two piece dresses in silk shantung in the color American Beauty (a cerise hue).

The fitted jackets with covered buttons and shirred shawl collar topped long slim skirts. They carried crescent bouquets of stargazer lilies, alstroemeria and freesia.

The bride's mother wore a pink chamfigue suit. The groom's mother wore an ivory linen dress.

The reception was held at the Bay-Waveland Yacht Club.

The couple made their home in Mobile.

Mr. and Mrs. Jeffrey Scott Pajak

## Clark-Carter

Mr. and Mrs. Charles E. Carter Jr. of Bay St. Louis announce the engagement and forthcoming marriage of their daughter, Catherine Cristin Carter, to Timothy Lewis Clark Jr., son of Mr. and Mrs. Timothy Lewis Clark Sr. of New Orleans, La.

The bride-elect is a 1986 graduate of Bay High School. She earned a BA in political science from Loyola University in 1990 will earn a MBA in December, 1993.

While at Loyola she has been honored on the dean's list and in the Outstanding College Students of America.

She is employed at Loyola University.

The prospective groom is a 1985 graduate of Grace King High School. He will earn a BA in political science from the University of New Orleans in May, 1994.

He was awarded the Best Fire Direction Officer in 1993 for the Washington Artillery and is an Army Lieutenant.

He is employed at Chateau Drugs.

The couple will exchange vows September 25, 1993, in a 6 p.m. ceremony at Mater Dolorosa Church in New Orleans. A reception will follow at the Opera Guild in New Orleans.

Timothy Clark and Catherine Carter

## Mauffray-Schaefer

Mr. and Mrs. Michael R. Schaefer of Diamondhead announce the engagement and forthcoming marriage of their daughter, Renee Melinda Schaefer, to Preston John (P.J.) Mauffray, son of Clarine H. Mauffray of Waveland.

The bride-elect is a 1989 graduate of Our Lady Academy. She attends the University of Southern Mississippi where she is majoring in elementary education.

She is employed with Southern Interiors in Bay St. Louis.

The prospective groom is a 1990 graduate of Bay High School. He is a student at Mississippi Gulf Coast Community College where he is majoring in Business Administration.

He is employed at Hubbards' Hardware in Waveland.

The couple will exchange vows November 19, 1993, in a 7 p.m. ceremony at Our Lady of the Gulf Catholic Church in Bay St. Louis.

Renee Melinda Schaefer

## Ladner-Cuevas

Mr. and Mrs. Sonny Cuevas of Bay St. Louis announce the engagement and forthcoming marriage of their daughter, Viola W. Cuevas, to Desi L. Ladner, son of Mr. and Mrs. Roger D. Ladner Sr. of Perkinston.

The bride-elect is a graduate of Bay High School.

The prospective groom is a graduate of Hancock High School. He works in carpentry.

The couple will exchange vows October 23, 1993, in a 2 p.m. ceremony at the First Methodist Church on Main Street. A reception will follow at the Hancock County Civic Center.

## Story hour titles told

"Wolves" will be the theme for this week's children's story hour at the City-County Public Library in Bay St. Louis Wednesday at 10:30 a.m.

The True Story of the Three Little Pigs and Beware of Boys are books to be read.

Children will see a movie about Little Red Riding Hood and receive coloring sheets. Refreshments will also be served.

"Zoo Animals" will be the theme at the Waveland Library Friday, Sept. 24 at 10:30 a.m.

Bobby's Zoo and Garfield and the Tiger are books to be featured. Children will make Play Dough animals and receive coloring sheets.

Weekly story hours are held at the City-County Library and the Waveland Library from September through May. Programs last approximately one hour.

The Kiln Library hosts story hour every other Friday at 10:30 a.m. These programs last approximately 30 minutes.

Programs and activities are designed for pre-school-aged children 3 to 5 years of age who are not part of a nursery or pre-school group.

Further information may be obtained by calling Janice Parrott at City-County, 467-5282; Evelyn Necaise, Waveland, 467-9240; or Sandra Ladner, Kiln, 255-1724.

## BUSINESS REVIEW

Advertorial

### Coastal Security offers protection services for homes and businesses

In June of this year, Jay and Rachael Fleuriel started their own business, Coastal Security Services, Inc., which services the entire Gulf Coast area.

Jay Fleuriel established and operated a branch of the Louisiana company, Alarm Protection Service, on the Coast for seven years.

"This year, I am proud to be Mississippi owned and operated where personal service can be achieved," he said.

Rachael Fleuriel said, "We decided to start our own business to give ourselves more freedom to make decisions and to have more flexibility."

Services offered include 24-hour UL listed central station, security systems and fire alarms, medical alerts, closed circuit TV, intercoms, electro-lux central vacuum systems, home automation and vehicle alarms.

CSS is also an authorized

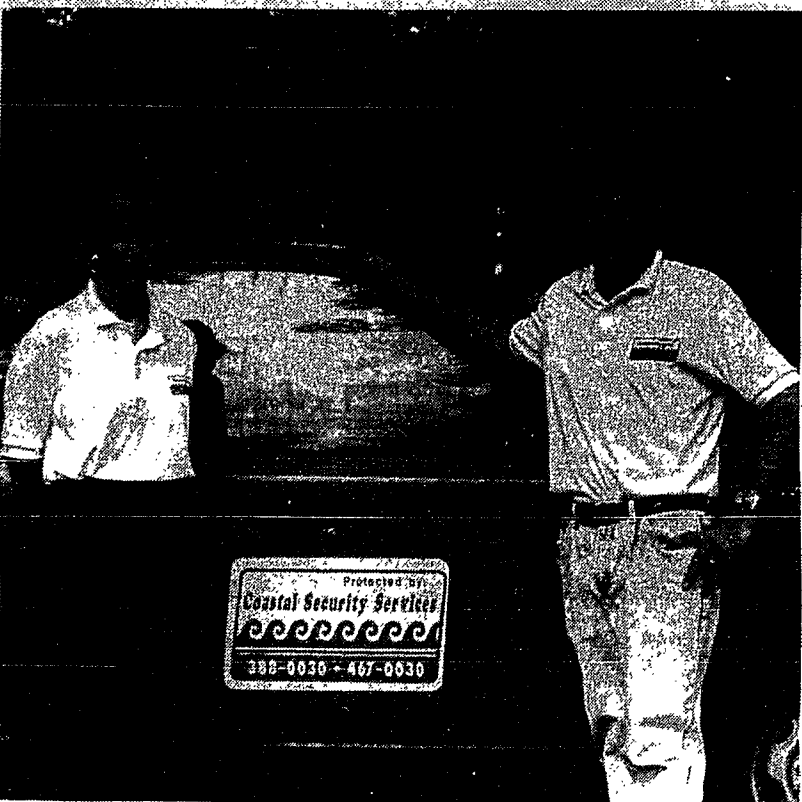

agent for Cellular South and A+ Communications Inc. offering cellular phones and pagers.

Jay Fleuriel said, "Business is really on a roll. Starting our own business was the best thing that could have ever happened, because we have been able to respond and commit ourselves to our mission statement."

Their mission statement reads: CSS commits itself to operate within its understanding of ethical and moral beliefs. We treat one another, our customers and the community with honesty, fairness and integrity. Service is the most important product we offer, and CSS recognizes the importance of service to our customers' needs and commit ourselves to respond promptly.

Chuck Kelly is the service manager and Eric Fletcher is the technician.

Coastal Security Services, Inc., can be reached at 467-0030 24 hours a day.

Rachael and Jay Fleuriel

### Outdoor Leisure can give you a place to escape daily pressure

Outdoor Leisure of Gulfport can provide you with an attractive spa retreat to escape the stresses of daily living.

You can also select from garden tubs, jetted baths, waterfall spas, saunas and steam rooms. Outdoor Leisure also offers above-ground pools ranging from 15 to 27 feet in diameter.

If you need additional leisure living space, Outdoor Leisure can provide screen or glass patio enclosures, redwood gazebos or curved glass sun rooms.

Outdoor Leisure is a factory-direct outlet for Cal Spas, the world's largest manufacturer of hot tubs and California Redwood Gazebos.

Visit Outdoor Leisure's new showroom at 606 34th Street, which features various styles of gazebos and spas. Let Pam Schexnayder show you spas to fit any budget and help you create a personalized retreat.

Their featured special through September is a Gazebo and 7-ft Spa Combination for \$6,495 delivered and installed (not pictured above).

All Cal Spas are UL listed and GFI protected. Outdoor Leisure offers you a one-year layaway at no charge. Financing is available.

For more information call 864-3600 or 1-800-322-1772.

Visit Outdoor Leisure's new showroom location in Gulfport.

# Color choice sets mood in a home

When planning a new kitchen or bathroom, certain considerations come to mind, such as placement of appliances, cabinet styles, countertops and flooring. And although the color of your room is not critical to its design, it will set the mood and theme of the room.

Before you can choose a color, you must first understand it. "Objects exhibit color because of the manner in which their surfaces reflect and absorb light," said Nicholas Geragi, CKD, CBD, director of education and product development for the National Kitchen & Bath Association (NKBA). "White, for example, is a mixture of equal parts of all colored wavelengths; and black is the virtual absence of all color."

There are three categories of color (also known as hues). Primary colors — red, yellow, blue — from which all other colors originate; secondary colors — green, orange, violet — which result when two primaries are combined; and tertiary colors — yellow-green, yellow-orange, red-orange, red-violet, blue-violet, blue-green — which are derived from the combination of a primary and secondary color.

Colors are important to kitchen and bathroom planning because color schemes can adjust the visual perception of an overall space.

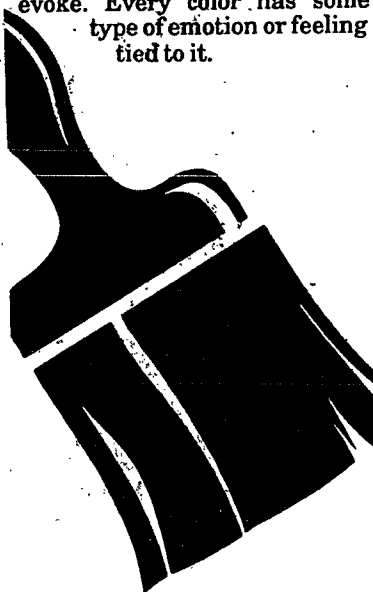

"Used in a specific way, color can expand, shrink, shorten or lengthen a room. It can even be used to conceal an undesirable feature in the room," adds Geragi.

For example, light colors can

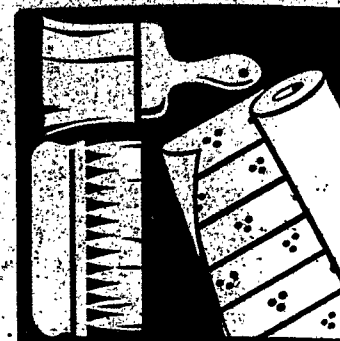

be used to decrease the weight of an object and therefore increase the overall perception of the area.

Use dark colors to increase the weight of an object and to decrease the spatial perception of the total area. Use the same color throughout an area to camouflage structural problems.

Another key consideration in the selection of a room's color scheme is the emotion or behavior that particular colors may evoke. Every color has some type of emotion or feeling tied to it.

An intense red color, for example, can be distracting if used in large amounts. It attracts attention, causes excitement and raises blood pressure. However, tints or shades of red used in smaller amounts can create a warm or rich feeling.

The color that the eye sees the fastest is yellow. Soft yellows can be cheering and feel sunny. Bright yellow, as an accent, attracts attention and brightens a room. Used in large amounts, yellow can be overstimulating.

The color green is viewed as a pacifier and is associated with nature. It can be relaxing and reassuring. Pale tints of green conjure images of growth, while deeper hues are associated with status and wealth.

Another calming and relaxing color is blue. Lighter values of this color evoke an airy and open feeling. Darker blues are reassuring because they are representative of wealth, strength and respect.

A noble color in its deepest values is the color purple, which is also viewed as flowery and refreshing in pale violet hues. Although deep purple is rarely used in large amounts, it can be used to great effect as an accent color.

The color orange may be stimulating, as in pumpkin orange, or warm, as in terra cotta and peach. As with other intense colors, it can be distracting, but it is ideal for attracting attention to detail.

White can be sterile, airy and refreshing, depending on what other colors are used with it. It

Texture of shingles, brick, stucco can give existing home a new look

If you're one of the thousands of Americans considering a new roof, new windows or new siding this year, here's a valuable tip for getting more than you bargained for: Take some time to really look at your home's exteriors — it's textures, colors and basic design — and select products that provide the pro-

home from the elements, the texture and color of a new roof can bring together your home's exterior features.

Whether your plans include one specific improvement or a combination of several, it's important to know a few basic rules about exterior home design.

ior products," says Cowles.

"We'll often recommend, for example, that brick, stucco or stone be combined with vinyl siding in a complementary color. This adds visual interest to the exterior and helps define the home's personality.

"That's not to say that a home must incorporate brick, stone, stucco or other such materials in order to achieve an attractive textural look," says Cowles.

"Some of the major vinyl siding manufacturers now offer

EXTERIORS—Page 6

tection you need, while offering additional opportunities for waking up your home's exterior beauty.

Think about it: Vinyl windows, while making your home more thermally efficient, also allow you to decorate with light.

New vinyl siding will end forever the chore of painting, while offering exciting opportunities for enhancing your home with color and style.

And, while protecting your

According to Truman Cowles, a partner in Schmidt-Cowles-DePersia, a Grand Rapids, Mich., architectural design firm, it's necessary to view your home as a whole — striving for colors and textures that complement each other, and that result in a nicely coordinated exterior.

### Textural design

"A house is definitely more interesting when it combines several different types of exter-

# Insulation

Spend today; save tomorrow

Hey buddy, can you spare a dime?

Most homeowners would probably say no — they need every dime to pay their home energy bills.

The Department of Energy (DOE) reports the average U.S. household spends \$1,100 — or 11,000 dimes — of its annual budget on these bills. All U.S. households combined spend over \$100 billion — or one trillion dimes — on energy bills each year. Heating and cooling costs make up 50 to 70 percent of these bills, the DOE says.

Some homeowners have tried to cut these costs by insulating their homes. However, many homes still fall short of the insulation R-value levels that the DOE recommends.

"Our research has found that two out of three insulated homes have only six inches or less of fiber glass insulation — far less than the 12 inches that the DOE recommends for most attics," says Frank Glover of Owens-Corning Fiberglass Corp., a leading manufacturer of energy-efficient building materials.

Insulating — or re-insulating — key areas of your home to the DOE's R-value recommendations is an easy and inexpensive do-it-yourself project that can help increase energy efficiency year-round.

"In fact, insulating a typical 1,000-sq. ft. attic with R-25 eight-inch-thick Attic Blanket insulation costs an average of \$350 when you do it yourself," Mr. Glover says. That's only 3,500 dimes.

Before you start any do-it-yourself insulation project,

make sure you have: a sharp utility knife, a step ladder for high reaches, a staple gun, a straight-edge and a measuring tape. For comfort, wear a mask, a long-sleeved shirt, a pair of work gloves and safety glasses.

Fiber glass blanket insulation is the most commonly used material for do-it-yourself projects. It typically comes in R-values of R-13, R-19, R-25, R-30 and R-38 (having thicknesses from 3½ to 12 inches).

## Blanketing the attic

Insulating your attic is one of the easiest and most effective ways to help save on your energy bills. If your attic already has some insulation, add unfaced R-25 (8 in.) Attic Blanket insulation, starting at the outer edges of the attic. Begin by laying a piece of temporary flooring to kneel on while working.

If the existing insulation is a few inches below the top of the joists, lay the new material directly over it, in between the joists. If the joist cavity is already filled, place the new insulation perpendicular to the existing layer.

Put in the long runs first, and place the leftover pieces aside for filling up smaller spaces later. Make sure to butt each section of insulation tightly up against the adjacent section for a complete thermal barrier. If you encounter wiring, split the insulation to fit around it.

If your attic currently has no insulation, install faced fiber glass blanket insulation — with kraft-paper or foil backing. The facing acts as a vapor barrier to help control moisture and should be placed down toward the warm-in-winter side.

Whether your insulation is faced or unfaced, leave vents uncovered so air flow is not blocked. This air flow reduces attic temperatures and prevents moisture buildup.

## Covering basement walls

Insulating your basement can provide your family with extra living space in your home. The easiest way to insulate basement walls is to build a framework of 2.4 studs, installed 16 or 24 in. on center, and then place R-13 (3½ in.) wall insulation or R-11 (3¼ in.) insulation between the studs.

Assemble the framework on the floor if your basement is

INSULATION—Page 9

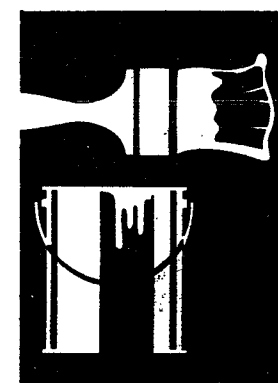

# Color

Continued from Page 2

can make small spaces seem larger and more open.

Frightening, exciting, elegant and rich all describe the color black. Like white, it is a color of contradictions that depends largely on the effect of other colors used with it. Black can make a large space seem smaller and more intimate.

By neutralizing a color, you can also neutralize its psychological effect. Neutral colors are less demanding and can be ideal for applications where overstimulation is not desired.

In a recent survey conducted by the NKBA, it was revealed that white is the most popular overall color for kitchens and bathrooms.

While this may seem boring to some, it can actually become a very interesting choice. It will allow you to a more creative and flexible in choosing your accessories, and they can become the focal point of your room.

For instance, you may select all black accessories and appliances to go with your white walls, cabinets, counters and floor. This will give your kitchen a very contemporary, hi-tech look.

Or you may chose softer pastels and floral prints as an accent for a country feel for your space. The possibilities are endless.

## Exteriors

Continued from Page 3

trim and accessory items, like corner systems and decorative moldings, that can be combined for a beautifully textured — and totally maintenance-free — exterior."

Choosing the right shingle design for your roof is another important component in an attractive exterior design.

Laminated asphalt shingles, also called designer or architectural shingles, are designed with overlay tabs. This design can add dimensional appeal to a roof, with a look similar to that of wood shakes or slate.

These designer shingles are

available in many price ranges, so every budget can be met. If your remodeling project involves only roofing at this point, a designer shingle roof could greatly enhance your home's overall aesthetics.

### Decorating with light

Another way to enhance a home's exterior is through replacement windows.

Best of all, today's trend toward decorative windows — and the multitude of shapes and styles now available in vinyl — makes it possible to enhance both the outside and inside aesthetics of your home

simultaneously.

While adding interest to your home's overall exterior, windows allow you to use light as a decorative element.

For example, instead of simply replacing your windows with the same style, install a bay, bow or picture window.

Add a circle top to an ordinary window, or turn a wall into a window wall. For true design flexibility, your best bet is thermally efficient custom-made windows.

### Coordinating colors

Like texture, color can have a dramatic impact on your home's exterior look. And, as noted by Cowles, the colors and textures you choose should complement each other.

Consider the two largest exterior elements, roofing and siding, together — and keep a few basic color rules in mind.

For example, light colors can help make a home look larger, while darker colors tend to make a home appear smaller.

If your home has an exterior feature you want to accent, it is best to use a warm, bright color. Additionally, studies have shown that warmer colors appear to advance while bolder, cooler colors tend to recede.

Of course, waking up your home's sleeping beauty will only be worthwhile if you do so with products that do an outstanding job of satisfying their primary purpose — that of protecting your home from the elements and reducing maintenance time and costs.

Ideally, you'll want to choose products that offer the right combination of quality, durability, performance and aesthetics.

## Putting the whirl in the pool

When you're shopping for a whirlpool, naturally you'll be thinking about shape, construction and durability. But don't forget about the jets.

Because when it comes to putting the "whirl in the pool," it's the jets that make the difference, according to the whirlpool specialists at Kohler Co.

One common misconception is that the greater the water flow through the jet, the better the massage action. Not so.

The effectiveness of the jet really depends upon three factors, and each should be considered in a purchasing decision.

The first is the ratio of air to water coming out of the jets — a higher proportion of air means stronger massage action, while more water means a gentler massage.

The second is the ability to adjust the air-water mixture, so that you can get a massage that's just right for you.

Third is the placement of the jets in the wall of the whirlpool and the extent to which the direction of jet flow can be adjusted — so you can position the massage action right where you want it.

## Winterize

### Tips for weatherproofing your home

Cleaning out the garage, putting away summer clothes, and buying school supplies are all signs that fall is near.

Now is a good time to weather-proof your home and yard. As most homeowners know, cracks and leaks around the outside of the house let cold air in and warm air out, and can

send heating bills soaring during the cold winter months.

Cracks in concrete driveways, steps and patios can expand when attacked by ice, snow and freezing rain. A small investment of time and energy can help avoid these problems.

To begin the weatherproofing process, check windows and door frames for cracking and splitting.

Clean the surfaces to be repaired and then use a wire brush to roughen them. The home repair experts at Elmer's Adhesives suggest using a good quality caulk to seal the leaks.

Caulk is an elastic, adhesive material that can be squeezed from a tube or pushed out of a cartridge with a caulk gun.

To fill the crack, push the caulking tube along the crack with its angled opening running fairly flat along the surface. To stop the flow, twist the gun slightly as you disengage.

Allow the area to dry for

approximately 30 minutes and then use latex or oil-based paint over the caulk.

Another area where cracks frequently appear is around outside wall faucets. With the same caulk, repair the area around and behind the faucet. This compound can be applied to damp as well as dry surfaces.

To protect concrete walkways, driveways, patios and steps from damage caused by bad weather, one quick and easy solution is a sealer such as Elmer's Acrylic Latex Concrete Crack Sealer. Apply the compound in two layers, 1/4" — 1/2" thick, allowing each to dry between applications.

Before the top layer dries completely, smooth it with a moistened brush to attain a more finished look.

Repairing and preventing damage outside a home is a simple autumn project that will save money, time and trouble later.

## Now neutral, appliances were once more colorful

Do your technicolor dreams feature pastel-tone pink and multicolored appliances? You may not be fantasizing, just too young to remember.

Celebrating its centennial anniversary in 1993, Maytag Company delved into the industry's past. Here's what the archivist found.

In the 1920s and '30s, clothes washers were manufactured in subtle grays and greens, and the color star of pre-World War II Maytags was a solid olive green.

But by the late 1930s, the company was also producing washers in eight different colors. In fact, the whole appliance industry liberally used colors until 1939, when Maytag introduced its new line of white

appliances, taking part in a "new" trend.

After the war, in the early 1950s, colors began to reappear. A washer/dryer pair, called Supermatics, featured pastel tones — "delicate" green and "subdued" yellow. Pink was added later.

In the early 1960s, demand for colored appliances tripled. In response, Maytag changed its color lineup to the deeper shades of Coppertone, Tur-

quoise and Sunshine Yellow.

Spanish Avocado was introduced in 1966 and California Gold in 1968.

About that time, shaded effects also came into vogue, and in the '70s, Harvest Wheat and Almond became standard.

In the '90s, all-white appliances are hits. But if history repeats itself, color may make a comeback. It's anyone's guess!

## Add beauty, durability to kitchen countertops

Ceramic tile shows up in so many bathrooms because it withstands moisture and abuse better than other wall and floor materials. So it should come as no surprise that designers today are specifying ceramic tile for the kitchen, too.

Sink backsplashes and countertops are logical spots for ceramic tile, thin stone, marble and other tiles. But to ensure a tile job that lasts, designers recommend functionality and durability over trendy tiles that may quickly go out of style.

"There aren't many styles of tile you can't use in kitchens," says James Krengel, a nationally recognized and certified kitchen and bath designer.

However, it's important that the consumer understands that what is trendy today may not be tomorrow. It is usually a wiser investment to go for a look that will last, as opposed to the latest trend.

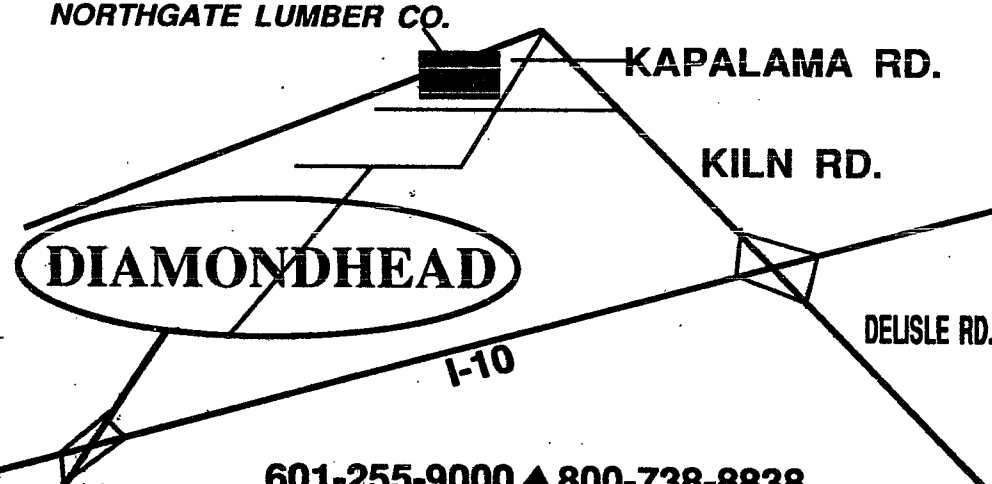

Tile countertops are catching on, according to Robert Kleinhans, executive director of the Tile Council of America.

"Tile is the material of choice for countertops in the southwest," he says. "It is being introduced in other parts of the country and is meeting with some success. Tile countertops and backsplashes are typically offered as an upgrade from

## Insulation

Continued from Page 4

level; if it isn't, install the top and bottom 2x4s and then the upright studs. In either case, the bottom studs should be pressure-treated to prevent rotting. The completed framework should be anchored to the floor with masonry nails and nailed directly to the joists overhead.

Measure and cut each length of insulation slightly long to ensure a tight fit. Wedge the fiber glass blankets snugly between the studs with the vapor barrier facing in toward the warm-in-winter side. Staple the flange (edge of the facing) to the studs.

If your insulation is unfaced, staple a vapor barrier of 4- or 6-mil. polyethylene plastic to the studs to prevent moisture buildup. Do not leave the polyethylene or faced insulation uncovered because these materials pose a fire hazard. Cover it with a code-approved interior finish, such as gypsum wallboard.

### Covering crawlspaces and floors

Insulating crawlspaces and floors helps maximize your home's energy efficiency. To insulate foundation walls in a heated crawlspace, measure and cut small pieces of unfaced R-19 (6 1/4 in.) fiber glass insulation to fit snugly against the band joist. Then, using long furring strips, nail long blankets of unfaced insulation to the sill or the band joist.

Faced insulation cannot be used on crawlspace walls because the facing is flammable and should never be left exposed. Make sure to use enough insulation to cascade down the wall and extend two feet onto the crawlspace floor.

Finally, lay a polyethylene film under the insulation and over the entire floor area. This will help reduce moisture in the crawlspace. Use bricks or rocks to help hold the insulation in place.

For floor over unheated crawlspace walls or basements, slip faced R-19 (6 1/4 in.) insulation blankets between the floor joists with the vapor barrier facing up toward the warm-in-winter side. The insulation will stay in place temporarily. However, since you won't have a flange to staple, install criss-crossing wire or metal rods called "insulation supports" to secure the insulation. Blankets should fit snugly and fill the entire cavity from end to end.

### Smart tips

Fill in the cracks around windows, doors and electrical boxes with your insulation scraps. Remember that insulation should be kept at least 3 in. away from recessed light fixtures unless they are designed for insulation contact and marked "I.C." Also, be sure to use only unfaced material in spaces between masonry chimneys and wood framing.

## Hassle-free home decorating

The frustration of redecorating: Choosing new furniture, loading, unloading, moving, pushing, pulling — and afterward having to pay dearly with thousands of dollars.

If something different and fresh is desired, but bankruptcy isn't, leave what is on the floor alone and concentrate on what is surrounding it — the walls.

Whether your taste be exotic, romantic, contemporary, traditional, futuristic, daring or subdued, redecorating doesn't have to be synonymous with elimination; it can, instead, mean redesign, re-assemble, highlight, or touch-up.

Wall hangings, paint, wall paper, tapestries, lights, murals, mirrors and ceiling hangings can give a mundane room the aura of your choice.

Furniture and carpet are two big investments, and many times earth or neutral tones are chosen so that coordination won't be a problem.

All decorating dreams can

come true without altering your safe color arrangement...it's the addition of color that gives a room, apartment, or entire house the illusion of receiving a brand new make-over.

Colored, patterned, and print-filled tapestries will add a foreign flavor to a room. Murals

ranging from picture-sized to the length of a wall offer glow and character.

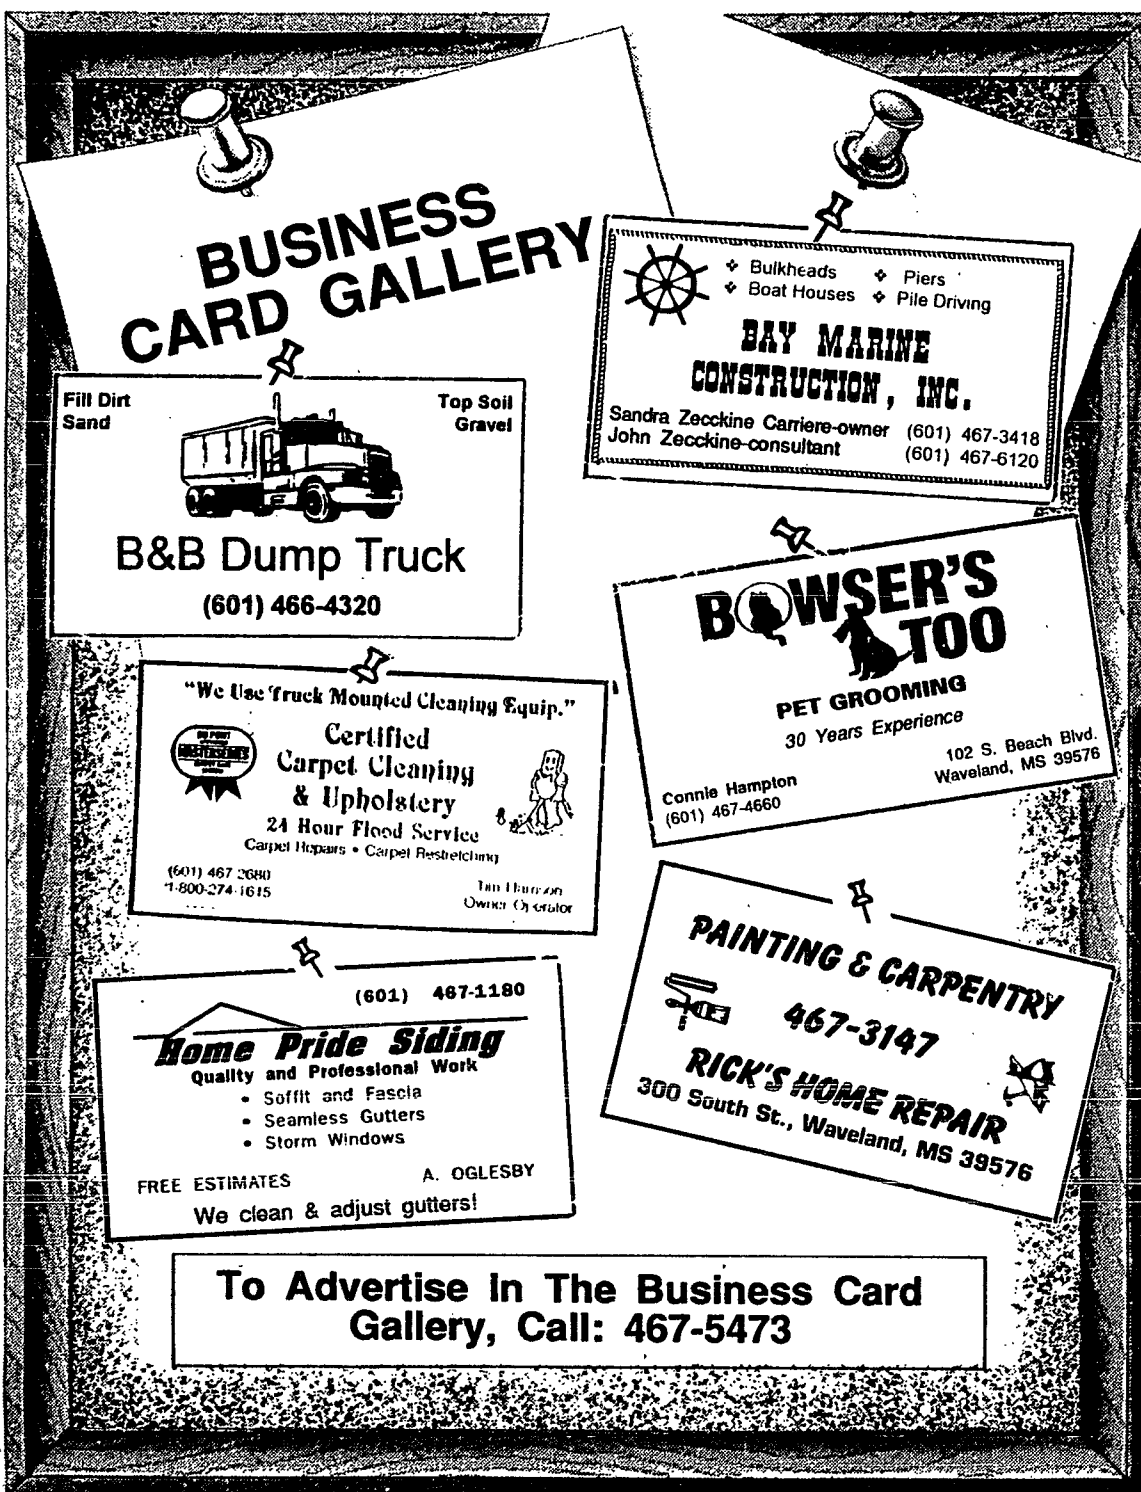

Lights of all shapes and sizes, with colored bulbs and fashionable shades, alluringly create any choice of mood. Mirrors add

DECORATING—Page 11

## Energy savers

- Check for drafts around windows and doors with a lighted candle. If the flame flickers, add more weatherstripping and caulking.
- Insulate your attic up to the Department of Energy's R-value recommendations with easy-to-use products, such as fiberglass insulation.
- Change furnace filters once a month.
- Close off unoccupied rooms.
- Insulate hot water heater, pipes and ducts.
- Close energy-stealing openings, such as fireplace dampers.
- Set thermostat at 65°F in the day, 55° at night.
- Install energy-efficient doors and windows.
- Vacuum radiators and registers frequently.
- Cover your window air conditioning unit to prevent cold air from sneaking through the vents.

laminates in new-home construction, and that seems to be popular."

While tile is very durable, Kleinhaus says, tile jobs won't last unless a water-resistant underlayment such as cement board is used. "Moisture can seep through grout or joints, so

sealing with a tile and grout sealer can help prevent moisture damage and alleviate any concern about hard-to-clean grout lines. And with the advent of water-resistant cement backer boards, we're seeing less water damage and longer-lasting tile jobs.

"Cement board has really changed the way contractors think about installation projects," Kleinhaus continues. "Standard mortar bed underlayments are becoming less prevalent because they are more labor- and time-intensive."

For more information on ceramic tile installation and the use of cement backer board, write U.S. Gypsum Co. at P.O. Box 806278, Chicago, IL 60680-4124 and ask for brochure CB-237, the Durock "How to Install Ceramic Tile" guide.

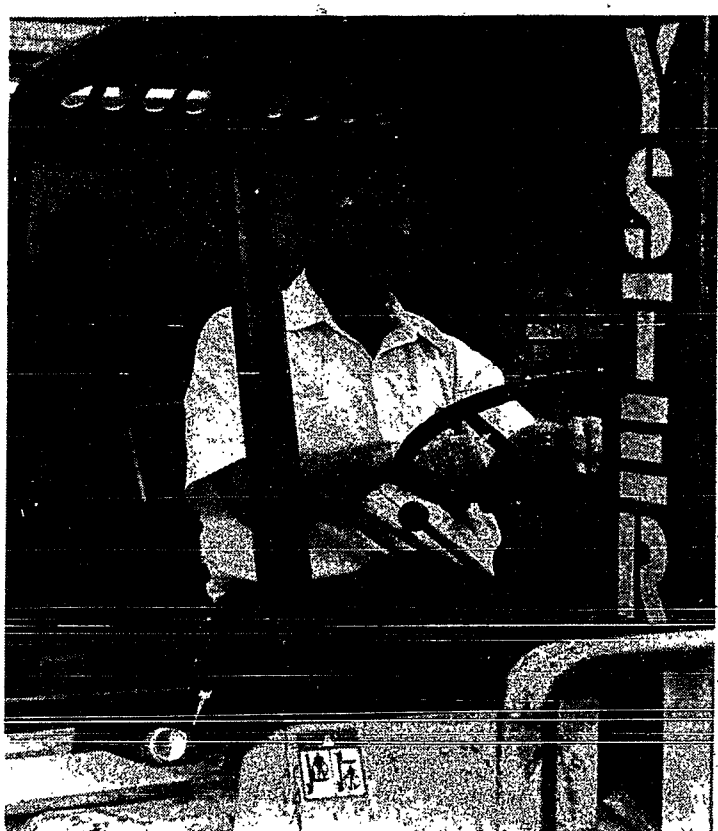

## Decorating

Continued from Page 10

depth to a compact room and a modern flair.

To supply even more life to your home, accessorize! Give the floor a lift with solid colored or printed throw rugs, and assorted shaped and designed pillows to ornament the furniture.

Redecorating does not have to be a tedious, expensive ordeal. If it is kept in mind that a room can be given a totally new appearance without omitting its foundation, and within monetary reason, your home can take on a personality of its own.
